

KING OIL, INC.
KING L.P. GAS INC.

Endurance R&O Oils

R&O

Turbine quality, industrial oils

FORMULATED TO:

- Resist rust, oxidation and thickening in high temperature service

APPLICATIONS INCLUDE:

- Non-EP gear cases, steam turbines, air compressors, non-antiwear hydraulic systems, chain drives, circulating oil systems and simple oiling systems

PERFORMANCE:

- Available in ISO 32, 46, 68 and 100 viscosity grades.

Typical Properties of Endurance R & O Oils

ISO Grade	32	46	68	100
Gravity, °API	31.2	29.9	28.9	28.4
Viscosity,				
cSt @ 40° C	30.3	43.8	64.8	96.3
cSt @ 100° C	5.2	6.6	8.4	11.0
Viscosity Index	95	95	95	95
Pour Point, °F	-37	-37	-32	-28
Flash Point, °F	425	440	480	490
